COLONIAL OFFICIALS.

They Are Trying to Mix Into the Negotiations.

ACTING AS SPANISH ALLIES.

Attempt to Settle All Incidental Questions First.

TIME AND PLACE OF EVACUATION

This, According to the Views of the Washington Authorities, Is the Only Point Involved According to Terms of the Protocol.

Washington, Sept. 23.—Official dispatches from Havana confirm the report that the colonial government of the island is taking a hand in shaping the terms in which the evacuation shall be executed.

This, it is believed here, may develop some new phases in the situation in Cuba.

The colonial government was established by Spain shortly before the war broke out, there being a cabinet of five officers at Havana and a legislative body with two houses.

It carried out in a measure the long pending plan of giving Cuba home rule by means of an autonomous government, but while in name autonomous, it was controlled by the insurgent element that genuine home rule was lacking and that this colonial regime was a continuance of Spanish domination.

It appears, however, that these colonial authorities are taking a very active part in the present negotiations and that there is more or less co-operation between them and the Spanish government.

This creates a condition, in which the United States must deal not only with Spain but with those who claim to represent the island itself, free from Spanish control.

The colonial, or autonomist administration, is very thoroughly organized, and can exert much influence. It established a regular legation in Washington prior to the war with several prominent public men of Havana on the staff.

It numbers in its ranks much of the wealth of Cuba and claims to stand for the educated classes as against the insurgents and illiterates. This makes two distinct Cuban classes: The autonomists, who are co-operating with Spain, and the insurgents, who are opposed to Spain.

It now seems clear from official as well as the press reports from Havana and Madrid that the autonomist element is taking up the claim first advanced by Spain that many incidental questions as to Cuba must be settled before the evacuation begins.

But the view among government officials here is that the Cuban autonomists as well as the Spaniards, have no questions to advance or settle before evacuation is determined upon.

The time and place of evacuation is looked upon by the authorities here as the only point involved and there is likely to be a rude awakening if the pro-Spanish element either as autonomists or as native Spaniards insists upon bringing in determination of the Cuban debt, future forms of government, rates of tariff for Spain and many other subjects, as a preliminary to evacuation.

The American commissioners, according to the understanding here, will insist on a strict adherence to the protocol for an immediate evacuation of the island, and if need be will submit an ultimatum against taking up subsidiary questions upon Cuba's future.

There are some 100,000 troops in the island. Allowing 1,000 men on a transport and a vessel leaving every day it would take 100 days, or over three months, for the evacuation. The time for departure will probably far exceed three months.

Washington, Sept. 23.—It is stated that the war department has received no detailed report or any information from the Cuban military commission regarding the work of the commission at Havana. In reply to the question as to whether there was any disposition to accede to the request of the Spaniards for a postponement of the evacuation of Cuba until some time next spring, the statement was made that no delay would be considered, that the evacuation must proceed with expedition, and that the troops of the United States were now being put in readiness for the occupation of Cuba and would be sent there. No definite date has been fixed for their departure.

The Killing Was Justifiable.
Washington, Sept. 23.—Lieutenant Colonel Dudley of the judge advocates

general's department has returned to Washington and is now engaged in the preparation of his report upon the conditions under which the Spanish prisoners on the Harvard were killed. It is believed that Colonel Dudley has already collected sufficient testimony to make clear the fact that the firing upon the Spaniards was a necessary and justifiable action.

Two Struck By Lightning.

Washington, Sept. 23.—The adjutant general of the army has received a cable message from Major General Brooke, dated at Peace, Porto Rico, Sept. 21, announcing four deaths Wednesday, as follows: Private E. A. Ferrell, company L, Eleventh infantry, typhoid fever; Private Ralph Holk, company N, Fifth infantry, gastritis; Corporal Bernard Bohn and Private Morris, both of the Eleventh infantry, killed by lightning.

Rebels Still Fighting.

Manila, Sept. 23.—Unless checked by the American forces, it seems more than probable that the rebels under Aguinaldo will soon have seized all the southern islands of the group. The steamship Abhey has arrived off the west coast. She carries a cargo of arms and ammunition for Aguinaldo's forces. After taking these munitions of war the Abhey is to proceed to the southern islands. She will carry a large force of rebel troops. These troops, who are now well armed, purpose attacking the Spanish garrisons of the islands to the south, and unless there is prompt interference there seems little doubt that the expedition will be successful.

Army Reorganization.

Washington, Sept. 23.—Major General Miles, commanding the army, has completed his plan for the reorganization of the volunteer forces into corps, divisions and brigades. This plan has been submitted to the war department for approval. The plan contemplates a reorganization of the volunteer force which has not been ordered hitherto, and designates an army of occupation for Cuba, provides for the relief of the army in Porto Rico and establishes a reserve to relieve the troops in the various islands which will be occupied by the United States.

One Fever Patient.

New York, Sept. 23.—The United States transport Segura, which reached Montauk Point from Santiago de Cuba, came up to quarantine. E. Isaacs, the civilian passenger sick with yellow fever, was transferred to Swinburne island. All the other passengers, mostly convalescents from the army in Cuba, and the crew will be held at Hoffman island for observation. Mr. Isaacs developed yellow fever on the third day out. All other sick on board improved during the passage.

Value of Ammunition.

Washington, Sept. 23.—The ordnance officers say that there is a very erroneous idea prevalent as to the value of the ammunition shot away by Dewey at Manila and by Sampson's fleet at Santiago. Instead of this running up as high as \$2,000,000, as asserted in some quarters, the fact was that Dewey at Manila fired \$47,000 worth of ammunition, and the North Atlantic fleet at Santiago on July 3 and during the bombardments not to exceed \$100,000.

Marines Reviewed.

Washington, Sept. 23.—The president reviewed from the portico of the Whitehouse a detachment of about 200 members of marine corps which served at Guantanamo during the war. The marines had just arrived and they marched direct to the executive mansion, headed by the marine band. The president stood with bared head as the bronzed heroes marched past, hewing his head, waving his hat and clapping his hands in turn.

Cervera's Coolness.

Madrid, Sept. 23.—The marked coolness of Admiral Cervera toward the minister of marine, Senor Aunon, is much commented upon here. Senor Aunon and his staff in uniform met Admiral Cervera and his party at the railroad depot. The admiral halted before the minister, saluted and said stiffly, "I am at the orders of your excellency. I shall present myself at the ministry, as is my duty."

Orders For Better Guns.

Washington, Sept. 23.—The navy department has recently placed orders for forgings for naval rifles of calibres from 4 to 12-inch to supply the new battleships, and in a short time the navy yard factory will begin to turn out ordnance embodying radical changes in gun construction, and much more powerful than guns of the same calibre now afloat on our ships.

Missouri Men Want to Quit.

Washington, Sept. 23.—Representative Cochran of Missouri was at the war department with a very large petition asking for the mustering out of the Fourth Missouri, now at Camp Meade. This was a petition from the soldiers and contained the names of about 95 per cent of the men of the regiment.

RESULTS OF INQUEST

Fully Establish Identity of the Murdered Girl.

THE BODY TO BE EXHUMED.

Police Arrest Harry Gullford, Son of Dr. Nancy Gullford, as He Was Attempting to Enter His Mother's Home.

Bridgeport, Conn., Sept. 23.—At the inquest held by Coroner Dote it was fully established by relatives of Miss Emma Gill of Southington that the body found in Yellow Mill pond September 12 and 13 was her's. Her father and three brothers fully identified the remains, and the coroner has issued an order permitting them to be exhumed and taken to Southington for interment.

Undertaker F. L. Curtis of Stratford denies that Charles A. Plumb of that town, now under arrest for complicity in the crime, has had the use of any wagon or team owned by him for the last three months.

Plumb is still in custody, but what evidence the police have to connect him with the case they refuse to divulge.

The police arrested Harry Gullford, son of Dr. Nancy Gullford, as he was attempting to enter the residence of his mother on Gilbert street. Superintendent Birmingham refuses absolutely to say a word concerning the case.

Another Case of Yellow Fever.

Jackson, Miss., Sept. 23.—The board of health officials announced that one case of yellow fever had occurred in the detention camp. The patient is a white woman named Clara Reese, who lived just across the street from the building where the man Kilgore died. She has been isolated and under close surveillance for 48 hours, and the case is diagnosed as a very mild one. The detention camp now contains 30 people, who have been exposed and is surrounded by six guards. The cordon was doubled immediately after the announcement of the case and there is little danger of a spread.

Chinese Concessions.

Hongkong, Sept. 23.—Details of the secret convention signed at Peking on March 27 are at hand. It appears that Hsu-Ying-K'ou of the Chinese foreign office, thereby concluded an agreement with St. Petersburg, by which China ceded Port Arthur and Ta-Lien-Wan, stipulating that only Russian and Chinese warships enter or dock at Port Arthur. Russia, it also appears, gets the exclusive use of the inner harbor of Ta-Lien-Wan, the sole administration of the ceded territories and a tract of land north of Ta-Lien-Wan, designated as a buffer belt.

After the Fourth Pool Miners.

Monongahela City, Pa., Sept. 23.—Having scored a victory in the third pool, the miners will now turn their attention to the mines in the fourth pool, where the Chicago agreement is being violated. The contest will be opened in a few days and the officials say will be waged vigorously until every operator is paying the district rate. Three mines in the third pool are still idle, the employer, Captain S. S. Brown, not having signified his willingness to comply with the Chicago agreement.

Will Bar Out the Chinese.

Washington, Sept. 23.—The secretary of the treasury made an important ruling, in which he holds that Chinese consuls in foreign countries are not authorized to issue certificates to privileged classes of Chinese entering this country. The effect of this ruling will be to prohibit the entry to this country of the privileged classes except upon presentation of certificates issued by the Imperial Chinese government.

Georgia Men to Be Dismissed.

Knoxville, Sept. 23.—The First Georgia will leave for Macon to be mustered out Friday. The attachment between the Georgians and the Thirty-first Michigan, with whom they are brigaded, has been the subject of much comment here. The companies of the Georgia regiment have entertained the companies of Michigan men in turn.

General Jackson Declines.

Nashville, Sept. 23.—General Jackson sent a telegram to President McKinley thanking him for the tender of a position on the commission to investigate the conduct of the war, and expressing regret that pressing private business compels him to decline the honor.

Is He the Murderer?

Bridgeport, Conn., Sept. 23.—Harry Gullford, son of Nancy A. Gullford, whose name has been frequently mentioned in connection with the Yellow Mill pond mystery, was arrested as he was about to unlock the door of his mother's house.

STRANDED IN LAKE ERIE.

The Fine New Steamer Minneapolis Flying Signals of Distress.

Cleveland, Sept. 23.—Captain McLaughlin of the steamer City of Cleveland, which arrived here from Detroit, reports a big steam barge stranded on Middle island, in the Put-in-Bay group. Captain McLaughlin said that he could not take his steamer close enough to get a good description of the stranded vessel. She was flying signals of distress. The City of Cleveland could do nothing for the steam barge and came on to this port.

Later in the day Mr. R. H. Rhodes of this city received word that the stranded steamer is the fine new boat Minneapolis. The wrecker Wales of Detroit was sent to her assistance.

Russia's Shrewd Move.

Vancouver, B. C., Sept. 23.—News comes from New Chwang that the Russians have been acquiring large tracts of land in the vicinity to make capital out of the proposed British railway enterprise in that region, as it seems that the land on the proposed route of the Russian railway has been purchased by the British, who demanded exorbitant prices for the same. Russians, by way of checkmating their rivals, have commenced building in the north of New Chwang without the necessary formality of purchasing or leasing the land from its owners. By this means they would hold the whip hand over the railway in eastern China, which is to run from Petuna to Port Arthur via Kirin, Loudkin and Naiching, with a branch from Port Arthur to New Chwang.

Only a Few More Left.

Montauk Point, L. I., Sept. 23.—Battery K of the First light artillery started for San Antonio, Tex. Friday battery F, Fourth artillery, Captain Taylor, goes to Newport, R. I. There are now in camp the Seventh, Twenty-fourth and Twenty-fifth infantry, and the First, Second, Sixth, Ninth and Tenth cavalry, the Fifteenth Pennsylvania volunteer signal corps and the Second volunteer engineer corps. The latter are to remain to do the clearing up of the different camps after the departure of the different regiments.

Double Murderer Shot Dead.

Cumberland, Md., Sept. 23.—Frank P. Myers shot and instantly killed John Lenhart, a constable, and Michael Kerns, a bystander, at Garrett, Md., while resisting eviction from a house which was the subject of a family dispute. He then harricaded the doors and windows, but was finally captured by the sheriff of the county. As soon as he was taken to jail some one in the crowd shot the prisoner in the head and he fell dead in the sheriff's arms. A posse is hunting for the man who shot Myers.

Mutiny on Board a German Ship.

Vancouver, B. C., Sept. 23.—A serious mutiny conspiracy has occurred on the German ship Christine lying in Kobe harbor. Assistance was sent from the Geflon and the men accused were eventually brought before the German acting consul and the accused will have to be sent to the vessel's port of entry, Bremen, to be tried for the offense. The prisoners consist of four Dutchmen, one Englishman and one German.

Grand Athletic Tournament.

San Francisco, Sept. 23.—Herman Oetrich of New York offered a number of championship belts for all weights to amateur boxers of the Olympic club, and preparations for an athletic tournament under the auspices of this organization are now in progress.

Will Consult Friends.

Washington, Sept. 23.—Colonel Bryan said that he would not leave for Jacksonville for a day. It is understood that he has concluded the business with the war department which brought him to Washington. He will devote the day to conferences with some of his political friends.

General Greene on Board.

San Francisco, Sept. 23.—The steamer China from Hongkong and Nagasaki arrived here. The China showed a clean bill of health and was not put in quarantine. General Merritt did not come on the China, as was expected, but Brigadier General Greene and his staff are on board.

Rain Prevented It.

Huntsville, Ala., Sept. 23.—General Copping's review of the enlisted men now here was again postponed on account of rain. It is now believed that Friday's review in honor of Secretary Alger will have to be given up owing to wet grounds.

Philippine Representatives Arrive.

San Francisco, Sept. 23.—Among the passengers on the steamer China which arrived from the Orient were Filipino Agonillo and Jose Lopez, who are going to Washington as representatives of Aguinaldo. After a short stay in Washington the two men will proceed to Paris to attend the meeting of the peace commission.

OHIO MEN ARRESTED.

Privates Kinkade and Grimes Get In Trouble.

ASSAULTED A HOTEL MAN.

Jewish Soldiers at Camp Meade Will Be Given Permission to Attend Atonement Services From Sunday Till Monday Evening.

Camp Meade, Middletown, Pa., Sept. 23.—Privates Charles Kinkades and Percy Grimes, company B, Seventh Ohio, were arrested by the civil authorities for assaulting a Middletown hotel man and damaging his property. Chief Surgeon Girard is having stoves placed in the field hospitals and is making other arrangements to make the sick and nurses comfortable during cold weather.

The Red Cross nurses have presented to Colonel Girard a dressing gown as an evidence of their cordial relations.

Rabbi Friedman of Harrisburg has received information from Major General Graham that permission would be given to Jewish soldiers of the camp to attend service on the day of atonement from Sunday evening till Monday evening of the next week.

Terre Haute Canton Wins.

Boston, Sept. 23.—Fully 500 Odd Fellows with their ladies gathered at the base ball grounds to watch the prize drills of the Patriarchs Militant. It had been announced that a number of cantons would compete for four prizes in two classes. Canton McKean, No. 28, of Terre Haute, Ind., was the one to appear on the field. After varied and intricate evolutions had been given, the canton was awarded the first prize of \$100.

Dr. Martin Appointed.

Washington, Sept. 23.—The state department has received from Minister Conger at Peking information that Dr. William A. P. Martin has been appointed to the important post of president of the Imperial university of China, recently established by imperial decree. Dr. Martin is a citizen of the United States, but went to China as a missionary about 40 years ago, and has passed most of his life since then in that country.

Nearly All Quay Men.

Philadelphia, Sept. 23.—At the Republican county convention the slate agreed upon by the leaders of the "combine" and "anti-combine" factions of the party went through without a break. Nearly all the legislative nominees are said to be favorable to Mr. Quay's return to the senate. In one district, however, a hard contest resulted in the election of two men instructed to vote against Senator Quay.

Sherman Hoar Ill.

Concord, Mass., Sept. 23.—Hon. Sherman Hoar is ill at home here with typhoid fever. He had been sick a few days with pneumonia and was improving until Wednesday, when typhoid fever developed. It is thought he contracted the disease while visiting the camps of the United States army in the south when traveling in the interests of the Massachusetts Volunteer Aid association.

Call for Retail Druggists.

Chicago, Sept. 23.—Retail druggists of this city have issued calls to the retail drug trade all over the country for the organization of a national association to east off the burden of the war tax imposed upon retailers by the manufacturers. October 17 the National Wholesale Druggists' association and the National Proprietary association will meet in St. Louis in annual convention.

Chartered a Fleet.

Cleveland, O., Sept. 23.—Cleveland vesselmen are negotiating with the Atlantic Transportation company of New York for the charter of a fleet of about 25 wooden schooners to be taken to the Atlantic coast by way of the Canadian canals. The vessels are to engage in the coal trade between Newport News and New York, Boston and other places north of the West Virginia coal supply.

Voorhees Nominated.

Trenton, N. J., Sept. 23.—The Republican state convention met here and nominated Foster M. Voorhees as its candidate for governor. Mr. Voorhees is at present a senator from Union county, and in this capacity as president of the senate has been acting as governor since Governor John W. Griggs was chosen attorney general.

More Spaniards Sail.

Washington, Sept. 23.—The acting secretary of war has received a cable message from General Brooke, chairman of the Porto Rican evacuation commission at San Juan, saying that 800 Spanish troops embarked for home.

For Kentucky, fair; warmer; westerly winds.

THE so-called "yellow journals" have not been half as severe in their denunciations of the disgraceful and outrageous management of some of the army hospitals as General Wiley, General Sanger and Colonel Leonard were at Lexington.

GENERALS WILEY and Sanger and Colonel Leonard corroborate all that the "yellow journals" have ever said in regard to the outrageous condition of affairs at Camp Thomas. And these army officers were on the ground and know what they are talking about.

In talking at Washington City this week Congressman Pugh said that the investigation of the conduct of the war will show more smoke than fire. He thinks that much of the criticism is unjust. Mr. Pugh should go up to Camp Hamilton and interview General Wiley, General Sanger and Colonel Leonard.

It is stated that an order modifying the civil service rules and regulations which has been so much talked about will be issued by the President just after the November elections. This announcement sent out from Washington will give Republican candidates for Congress a fresh "pull." They can now hold out promises of innumerable positions, and they will do it every time.

BARBOURVILLE, Ky., Sept. 20.—The Hon. John H. Wilson was today asked if he wished to say anything relative to the judicial primary held last Saturday. With his usual good-humored smile he said: "I think I have been cleaned up, lock, stock and barrel. My candidacy shows that the Democratic cry of fraud in this section of the State is not to be discredited."

And the Goebel election law was enacted to put a stop to these Republican frauds.

PRESIDENT MCKINLEY is said to be very greatly disturbed over the sensational developments at Camp Hamilton this week when Generals Wiley and Sanger and Colonel Leonard talked so plainly about the inefficiency of two of the staff departments of the army—the medical and Quartermaster General's departments. A special from Washington says:

Here are direct and explicit charges made against two of the most important staff departments, not by private soldiers or civilians, but by two general officers of the volunteer army, one of them, Gen. Sanger, being an Inspector General in the regular service. There was no direct charge against the Secretary of War personally in anything said by these two officers, but the question that naturally arises is: How could things have been so bad in these two departments without the Secretary of War knowing something about it? There has certainly been enough complaint about these two departments from the very beginning to direct the attention of the head of the War Department to them.

There is one serious difficulty in the way of making any change in the office of Secretary of War, and that is the fact that, however much Secretary Alger may have been to blame for not discovering the weak places in the staff departments of the army, the President himself is largely responsible for these weak places, as it was he who, yielding to the importunities of Senators, Representatives and other influential men, filled the staff corps up with inexperienced and inefficient civilians. If he should now turn out Secretary Alger he might be charged with making him a scape-goat for his own shortcomings.

Through the filling up of the staff corps with "sons of their fathers" and other incompetents is now recognized by military men to have been one of the most serious blunders of the war, it is probable that it will not be as much criticized as will be Secretary Alger's administration of the War Department.

And yet why should the President be excused for his blunders? The press severely criticised him at the time he was filling up the staff corps with "sons of their fathers," and warned him that it would result in injuring the efficiency and standing of the army.

Democrats Should Be on the Alert.
[Dover News.]

While we believe there is scarcely a doubt but that Hon. Mordecai Williams will be elected to Congress from this district, it will never do for the Democrats to hug the delusion that he can be elected without work. We were defeated the last time wholly through overconfidence. Rest assured every nerve of the Republicans will be strained to elect Sam. J. Pugh. They are being backed by the State and National committees, and everything that money can do will be done. Let Democrats be alert at every point.

FARMERS' INSTITUTES.

Twenty To Be Held in Kentucky, Beginning the First of November—Places Will Be Announced.

Hon. Lucas Moore, State Commissioner of Agriculture, recently attended a meeting of the Advisory Board of the Bureau of Agriculture at Lexington to consider the question of holding a series of Farmers' Institutes throughout the State during the winter. The board decided to hold not less than twenty of these institutes during the season, and Mr. Moore and Prof. Scovell are now busy arranging for a corps of lecturers and selecting the points where the most good may be accomplished. The sum of \$5,000 was appropriated to pay the expenses.

The institutes will begin about November 29th, and will continue up to within a week of the Christmas holidays. After the close of the holiday season another series will begin and continue until the beginning of spring work on farms interferes with the attendance of farmers. In order to take advantage of the good state of roads, the first series will be held in the eastern part of the State, the western section receiving attention after the holiday season. No labor or expense will be spared in order to make these meetings both interesting and instructive, and preference will be given to those points displaying the most interest in the movement and evincing a desire to help out with local talent.

Mr. Moore will be glad to hear from representative citizens in the various parts of the State, and to have correspondents mention the topics which will awaken the most interest and be best adapted to the needs of the farmers of that section.

Maysville should go to work and secure one of these institutes.

SPECIALLY FAVORED.

Crops in Kentucky Have Fared Unusually Well This Year—Season About Closed.

The crop season in Kentucky is about over and on next Tuesday will be issued the last of the Weather Bureau's weekly crop bulletins for this section. Section Director George E. Hunt feels that it is a subject for congratulation that crops have fared so well in 1898.

In speaking of the matter Mr. Hunt said: "All things considered, the season has been one of the most favorable ever recorded for Kentucky. Corn was an excellent crop from start to finish. The same can be said of wheat, though both crops were considerably damaged by the excessive rains of July, which delayed threshing and caused wheat to sprout in the shock and stack. A portion of the corn crop damaged lay along the streams of the State and was flooded during the latter part of July.

"The tobacco crop suffered less from worms than ever heretofore known, and, although the field was irregular and at several times suffered from 'frenching' and other causes, it has eventually turned out remarkably well. The bulk of both the corn and tobacco crops has been harvested in very good condition, and late-planted fields will in a few days be safe from frost."

TARGET PRACTICE

Is the Order From Washington to the Fourth Kentucky Regiment at Anniston.

Col. Colson, of the Fourth Kentucky regiment, now at Camp Shipp, Anniston, Ala., has received instructions from the Chief of the Ordnance War Department to make arrangements immediately to have his regiment begin target practice.

One hundred and twenty-eight thousand ball cartridges have been consigned to the Fourth, 100 to each man. Other regiments also take up target practice at once. The mountaineers were wild with delight at the order.

Col. Colson wants it understood that Miss Mattie Marion, of Clay County, is the "laughter of the regiment" and is now with the regiment. Miss Farley, of Lexington, who was to accompany Miss Marion as companion, will not do so.

Foot-Ball Practice.

The foot-ball team will practice at the ball park this afternoon at 4 o'clock. The boys are showing a good deal of enthusiasm and are determined to have a team this fall that will be a credit to Maysville.

How To Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; if your kidneys be affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at J. J. Wood & Son's drug store. Fifty cents per bottle.

Friends of Judge Thomas R. Phister Have Decided To Present Him For the Position.

VANCEBURG, Ky., Sept. 21.—At a caucus of leading Democrats held here today it was resolved to agitate the candidacy of Judge Thomas R. Phister for Attorney General.

He is a son of the late Judge E. C. Phister, jurist and Congressman.

Judge Phister will be the representative of the mountain section of North-eastern Kentucky, where he is popular.

Judge Phister's many friends in this county and elsewhere will join enthusiastically in the move to present him as a candidate for the position named. He is one of the brightest members of the bar in this section of the State, an able and eloquent speaker and will prove a very strong candidate.

IMPALED ON A FENCE.

Thomas Foreman, Formerly of This City, Painfully Injured While Riding a Bicycle.

Thomas Foreman, aged nineteen, formerly of this city, but now living at Dayton, Ky., recently met with a serious and very painful accident in that city. He was riding a bicycle on the pavement when the wheel struck an obstruction, throwing the boy directly over an iron fence.

In falling, his neck struck on a sharp-pointed iron picket, which passed through his jaw into his mouth. In his agony he screamed for help the best he could. His brother-in-law, Mr. Taylor, heard the cries and went to his rescue.

The muscles of the lacerated flesh had contracted so firmly that Mr. Taylor found it necessary to pull the flesh away before he could release the boy. He finally succeeded in extricating the unfortunate fellow from his awful predicament.

Young Foreman was then taken to Dr. Schoolfield's office, where his wounds were cauterized and dressed. An examination revealed that his jaw bone was broken, in addition to the flesh wounds. The injuries were properly bandaged and no serious results are expected.

JAMES H. GINN, who got into trouble at Cincinnati this week and was sent out for thirty days and fined \$50, stopped for several days, with Mrs. Farie, at the Grand View Hotel, before going to Cincinnati. They did not try to palm themselves off as man and wife while here, but had separate rooms at the hotel. The woman, it is said, belongs to a good family of Fleming County.

SHOPLIFTERS CAUGHT.

Two Negro Women Jailed Thursday Afternoon For Stealing Dress Goods at the Bee Hive.

The Emancipation Day celebration brought quite a crowd of colored people to town yesterday and in the number were Mollie Smith and Fannie Johnson, who claim to be servants in the family of Mr. A. H. Calvert, near Lewisburg.

Mollie and Fannie went into the Bee Hive during the afternoon and spent some time looking at and pricing various articles. When they left, Mr. Jim Fitzgerald, one of the salesman, who had had his suspicions aroused by their actions, thought they carried out entirely too many packages. He spoke to Mr. Lee Harris, one of the proprietors, and was told to follow them.

The two women went around on Market street and into Dieterich's seed store where they asked for some paper and wrapped up two bolts of dress goods. They then proceeded up Market street.

The Johnson woman was overhauled at Lovel's corner by Mr. Fitzgerald and was turned over to Policeman Wallace who had been summoned. The goods had been left at Mr. Lovel's store by the women, and were returned to the Bee Hive by Mr. Wallace. There were about sixty yards in the two bolts.

The Johnson woman claimed her companion stole the goods and turned them over to her. The Smith woman was afterwards found by Mr. Wallace at M. C. Russell & Son's store where she was waiting for the bus to take her home.

Mollie and Fannie were charged with grand larceny, and were jailed to await their examining trial which is set for 2 o'clock this afternoon before Judge Wadsworth.

The Ladies.

The pleasant effect and perfect safety with which ladies may use Syrup of Figs, under all conditions, makes it their favorite remedy. To get the truth and genuine article, look for the name of the California Fig Syrup Company printed near the bottom of the package. For sale by all druggists.

For the Farmer.

After a hog has passed 250 pounds it is very doubtful if the average feeder can put another ounce on him with profit. Medium weight hogs can be raised between two winters and require less grain for finishing off.

Large flocks of sheep do not pay so well, relatively, as smaller ones. Farmers frequently overstock themselves with sheep, and then complain that they do not pay. They will not thrive if crowded, and this is a primary cause of disease.

ANDY CRAIG, crazy drunk and armed with a big knife, went on the war path in the West End Thursday afternoon, but was jailed by Policeman Wallace before he had succeeded in carving anybody. Judge Wadsworth will likely give Andy a job of cutting weeds or breaking rock.

The largest I. O. O. F. lodge ever instituted was at Memphis, Tenn., April 26, 1898, 552 gentlemen being initiated. Then 71 candidates who had paid the initiation fee were elected; so the total membership of the new lodge, when these had been initiated, including the 23 who were already Oddfellows, was 646.

At Georgetown, O., Thursday the jury in the case of John Donald, indicted for killing Mayor Charles Halfhill, of Higginsport, last March, after deliberating all night, returned a verdict of not guilty. Donald is a prominent and wealthy lumber dealer and liveryman of Higginsport. The killing was the result of a feud of long standing, and in the fight resulting in Halfhill's death, Donald and his son Will were both wounded.

SOLD TO MINORS,

And On the Sabbath, Too, and Was Given Stiff Fines For Violating the Law.

James Sullivan, who conducts a saloon at the southeast corner of Market and Front streets, was in the Police Court Thursday on two charges,—selling liquor on Sunday and selling liquor to minors.

He was convicted of both offenses, and was fined \$15 and costs in the first case, and \$50 and costs for selling to minors.

It's the general impression there are others guilty of these offenses, and if they are ever landed in the Police Court, Judge Wadsworth will treat them a la Sullivan.

SUPERIOR

SINGLE DISC
GRAIN DRILL.
Simplicity of Perfection.

The only absolute positive force feed, which can be instantly changed to any desired quantity—a vast improvement over the old style cog wheel feed abandoned many years ago. Can be thrown in and out of gear, allowing the disc to remain in the ground—another improvement over the old style drills.

THE SUPERIOR SINGLE DISC DRILL will do more and better work with less labor than any other drill made. It will sow and cover grain in all kinds and conditions of soil, in hard ground and soft ground, in weeds, corn stalks, crab grass or any kind of vines, without clogging. We have been selling this drill for four years. Ask the users as to their superiority and they will invariably tell you to buy no other and that they are the best drills on earth. The SUPERIOR was the first successful Disc Drill. There are imitations; Beware of them. We solicit your inspection of the Superior before placing your order for a drill.

THE REBEKAHS.

Meeting of the State Assembly at Louisville—Statistics of This Branch of Oddfellowship.

The first meeting of the Kentucky State Assembly of Rebekahs, I. O. O. F., that has ever been held separate and apart from the State Grand Lodge, was begun at 10 o'clock Wednesday morning at Liberty Hall. Between seventy-five and 100 delegates were present when Mrs. Mathilda Hartman, President, opened the session.

The report of the Secretary, Mrs. Nannie Ross, shows that there are 66 lodges in the State, composed of 1,694 members, 957 being brothers and 737 sisters. Two lodges with 57 members were instituted during the last year, and two lodges reinstated. Only four deaths have been reported. Forty-seven lodges have paid per capita taxes to the amount of \$190.70, and nineteen lodges are in arrears for the per capita tax. The Secretary's expenses have been \$91.30.

River News.

Nine Mlle is reported as the worst place in the river.

Captain George Bay, of the Bay line of steamers, has nine children, all daughters.

The Lizzie Bay has taken the Stanley's place in the Pomeroy trade. The Bedford is due down to-night and the Kanawha will pass up.

The head of navigation on the Ohio river now is Pomeroy, and there is still a fair stage of water from there to Cincinnati, where the marks show six feet.

UP TO DATE twenty-three equity suits have been filed for the November term of the Circuit Court, and of these twelve are for divorce.

LEXINGTON Herald: "Mr. and Mrs. George Bateman entertained on Tuesday at a handsome family dinner at their home on the Maysville pike, in honor of their guests, Mr. and Mrs. John Steers, Mr. and Mrs. C. N. Bollinger and Mrs. T. C. Downing, of Mason County. The table was most artistically suggestive of our lovely season of early autumn; the floral decorations being a superb bunch of golden rod. Other guests at dinner were Mr. and Mrs. A. B. Bateman, Mr. and Mrs. W. M. Bateman, Mr. and Mrs. John Stevenson."

The Awkwardness of Being a Prince.

The Prince of Wales is placed by fate in the most difficult position of any English subject. Labeled incessantly, continuously and malignantly, silence is imposed on him by reasons of state. If he patronizes the drama, for the neglect of which the queen is persistently blamed, the prince is depicted as a trifler, who finds in the society of mummery relief from the tedium of a wasted life. If he encourages our national sports, he is a profligate and is compared with royal predecessors, whose conduct would certainly not commend itself today even to the staunchest supporters of monarchy. If he does not lavish money he does not possess, he is said to be stingy. If he makes an outlay on a church at Sandringham or a ball at Marlborough House, he is a spendthrift. Unworthy friendships are attributed to him with men upon whom he has never set eyes or with whom he may perhaps have exchanged a casual word. If he plays a game of cards, he is a gambler.

Fierce as is the light that beats upon a throne, the cruel and searching illumination of the prince's life inflicts on him the disabilities and responsibilities, while denying him either the power of the throne or the privileges of a private station.—Harper's Magazine.

The English Broom.

One of the botanical oddities of Massachusetts is the existence of the English broom, which grows in only two places—in Sterling, this county, and in Salem. It is not a native plant, and how it got across the water is a mystery. Perhaps some homesick colonist caused it to be sent to him, that the hills about his new home might have the familiar appearance of the old country. It is a beautiful golden yellow in color and grows in a compact, spirelike plant, with blossoms close together. So thick are the stalks that the pastures are like sheets of gold, and at first sight seem to be buttercups in masses. Arba Pierce brought some of it into the city and proposes to make a display of it at the exhibition of the horticultural society.

Every one has heard of the broom. English and Scotch literature is full of it. It was the flower of the royal house of Plantagenet. In fact, the name Plantagenet is the French for broom plant a genet. Their ancestor, the Count d'Anjou, wore a string of broom as a badge, therefore their name. The name broom is given it because of its usefulness for the purpose.—Worcester (Mass.) Gazette.

Seeing the Sights.

Even in these days of liberal education young women sometimes show how confused are the ideas shut up in their heads. Illustrative of this is the naive blunder which Edmondo de Amicis recounts in his story of a voyage from Genoa to Buenos Ayres:

The captain of the steamer which numbered the charming young blunderer among its passengers met her one morning and said:

"Signorina, we cross the tropic of cancer today."

"Oh, indeed!" she cried, with enthusiasm. "Then we shall see something at last."

MAJOR GARADY'S DEATH.

He Was the Inventor of a Fuse to Explode Shells.

Paducah, Ky., Sept. 23.—Major U. P. Garady, a Confederate veteran, 70, died here. He was born in France and spent most of his life in Paducah, Ga.

He invented the Garady fuse to explode shells. For his invention he received \$50,000 for a one-fifth interest during the war. His invention was successfully used in the Franco-Prussian war. During the past few years he has resided in Paducah.

Relations Severed.

Colon, Colombia, Sept. 23.—Advices received here from Bogota, the capital of Colombia, say that all relations between Colombia and Italy have been severed owing to the action of the Italian government in the Cerruti affair, which the Colombian officials considered arbitrary and in violation of the treaty of 1892, which was thereby annulled.

Vessel in Distress.

St. Johns, N. F. Sept. 23.—The British steamer Ethelinda, from Philadelphia for Rotterdam, passed Cape Race at noon bound for this port in distress. It is reported that she has eight feet of water in her hold, and the seas are making a clean breach over her. The steamer Favorite has been dispatched to assist her to port.

Bank Receipts Taxable.

Washington, Sept. 23.—The commissioner of internal revenue has rendered a decision in which he holds that a depositor's receipt in the following words is subject to a stamp tax as a bank check: "Received of the La Grange Banking and Trust company one dollar, to be deducted from my deposit. Signed, John Smith, Jr."

Chase Is Insolvent.

Boston, Sept. 23.—H. Gardner Chase, broker of this city, filed a voluntary petition in insolvency in the United States District court. His liabilities amount to \$45,000, of which \$15,000 is secured. He has comparatively no assets.

To Aid the Temple Trustees.

Chicago, Sept. 23.—At a meeting of the Second district Illinois W. C. T. U. a resolution was passed that they stand by the temple trustees in their efforts to pay for the temple, and make a memorial to Miss Frances Willard.

HARDSHIPS OF THE YUKON.

Forty Men Who Went North Full of Hope Are All Brought Back in Coffins.

The following is an extract from a letter received by Mr. David Henderson, a lawyer of Hamilton, Ont., from a friend in Victoria, B. C., who says: "We are beginning to see the true horrors of the Klondike. A Seattle farmer brought down 40 corpses last week, and on Saturday last a Victorian came from Dawson City bringing the sad news of the death of L. B. Hamlin, C. E., and his companion from exposure. He left home in October upon government work. Dr. Richardson, son of Dr. Richardson, of Toronto, has a small hospital in Dawson City. He did all possible for him, but without avail.

"It is fearful, the greed for gold. We see it here in all classes going out to this cold region. Many will never return; others will probably come back to be a burden upon the coast cities. You will say I have not much faith in the Yukon. I have not. The merchants, contractors and hotel men will make their fortunes, and there will be left to Canada a lot of useless inhabitants, although, it is said, after the first wash-up there will not be less than 20 tons of gold brought down. The most of this will go to the United States."

Degeneracy in Dancing.

The person who invented the expression that "dancing is the poetry of motion" certainly had never seen the style that prevails at present on the ball room floors at some of the summer resorts and on the boat excursions. If the dancers were soldiers, and consigned to be shaken in a blanket, the order could not be carried out in a more effectual manner than by putting them at dancing the two-step and the waltz. An on-looker holds his breath in anxiety and feels as much curiosity concerning the final results as if a race were in progress.

Besides the ungraceful motion of "bobbing," the manner of holding a partner is open to much criticism. The present fad seems to be for the girl to appear to be hung around the young man's neck. The large gainsboro hat completely covers her face and wabbles madly to and fro. The peculiar dip or swaying of the body suggests that the girl's waist has been broken and tied at the wrong angle.

A Wedding Announcement.

This is how the editor of the Humboldt (Kan.) Herald recently announced his marriage: "Mr. F. A. McCarthy (that's us) and Miss Nannie Fisher (that's more of us) were united in marriage Wednesday, July 27, at 10 a. m. The ceremony was followed by a sumptuous repast, which we have only a faint recollection of. Some way events seemed to crowd on each other then, and God has given us the best earthly thing within his gift. The joy in a sweet wife is too great to be described—too sacred to be spoken of."
